PRICE ONE CENT.

NEW YORK, THURSDAY, MAY 3, 1888.

BARGAIN-HUNTERS JOYFUL.

FLOCKING TO AN AUCTION SALE AT THE HOTEL SHELBURN.

The Hetel's Household Goods Going Off at Low Prices-Uncle Rufus Hatch Invests in a Fly-Specked Lamp and a Bedstead for a Few Dollars-Proprietor Blian Dors Not Return to Bld at the Sale.

Until about a week ago the Hotel Shelburn, at Fifth avenue and Thirty-sixth street, was the home of many New Yorkers of means. To-day it is deserted by boarders and is invaded by an eager horde of bargainseekers, who are bidding on its elegant furniture, which is being sold under the auctioneer's bammer.

The building is a portion of the great Astor estate, and its lessees were Homer L. and Willis N. Blinn, brothers.

Homer L. Blinn, the senior partner, had been ill for a long time. He removed to his old home in the Green Mountains for the benefit of his health. During his absence the burden of business fell upon his brother. It apparently was too much for him to carry. for one morning about four weeks ago the hotel awoke to a realization of the fact that its proprietor had fled.

Some of the help, nearly one hundred in all, had owing to them wages for three months, but they continued to run the hotel, hoping for the return of their employer and the payment of their wages,

He did not come, and the hotel was closed a week week ago by the trustees of the Astor estate, who proceeded to foreclose a chattel mortgage for \$21,000 and interest on the fix-

mortgage for \$21,000 and interest on the fixtures and furniture of the building. The sale, which was begun this morning, will continue until Tuesday, and is the result of that foreclosure.

Before the foreclosure, however Deputy Sheriff McGinness made a levy upon the wine cellar and silver closet to collect a judgment of \$2,122.54 in favor of Allerton & Merritt, creditors of the missing Blinn.

This morning the hotel was thrown open to the public. The auctioneer's clerk had preceded the crowd with his box of crayons, and from cellar to garret, on every conceivable article of furniture, and in some cases on portions of the building, were chalked the lots" from 1 to 2,299.

portions of the building, were chalked the "lots" from 1 to 2,299.

One man, whose curiosity concerning the contents of the building had not gone beyond the limits of the wine cellar, had evidently found an entrance last night, for he was discovered in a drunken stupor lying in a corner of the kitchen. The lock on the wine cellar near by had been forced. The bibulous individual was forcibly ejected.

Among the buyers was Uncle Rufus Hatch, who was "plunging" on a very minute scale. He had evidently been shorn of his Wall s reet horns, for his endeavor was to depreciate values. A much fly specked drop-lamp fell to his lot on a two dollar put, and a black walnut bedstead was acquired for little more than a song.

than a song.
Some of the prices obtained were very fair.

but Counsellor Tracy, of Evaris, Choate & Beaman, who represent the Astors, thought that they would not realize more than \$10,000 on the sale.

This loss will not embarrass the Astors financially, it is needless to say.

## DEMOCRATS AT TRENTON.

The Blodgett and Abbett Forces Fighting Over Delegates to St. Louis.

ISPECIAL TO THE WORLD, I Thenton, May 3 .- The blare of a brass band and the cheers of crowds of enthusiastic Democrats about the corridors and porticoes of the group of hotels on North Warren street give notice to the world that the Democracy of New Jersey has taken possession of Trenton to-day. The State Convention to elect eighteen delegates to St. Louis had been called to meet at noon in Taylor Opera-House, which is gay with flags and

streamers.
What promised last night to be a very tame what promised last night to be a very same affair has this morning developed into a struggle. All night and up to 10 a. m. the leaders were trying to arrange a programme which would satisfy the hostile Abbett and Blodgett forces, but without success.

The slate of the State Committee for delegates at large is Goy, Green, ex-Goy, Abbett.

The state of the State Committee for delegates at large is Gov. Green, ex-Gov. Abbett, Moses Bigelow, of Essex, and Senator Phelps P. Baker, of Cumberland.

The Blodgett forces, led by the Senator himself, who is on the ground with United States Senator McPherson, are making a determined fight to smash the slate and admit Blodgett.

The holders of stalls in the city markets receive

notice yesterday of an advance of 10 to 15 per cent. in the rent they have been paying. The increase is to take effect on May 10. With the single excep-tion of Fulton Market the stand-owners are coject-ing strongly to the increase, for, they say, their trade has been growing smaller and smaller until there is harely enough left to pay them to stay. At Fulton Market the oldest tenants say they are satisfied.

ANN O'DELIA SAYS "NOT GUILTY." the and the Whilom General Arraigned

Two trifling circumstances saved Ann O'Delia from the terrible indignity of being carried in the prison van from the Tombs to the General Sessions Court this morning. One was that she was the only female prisoner to be arraigned and the other was that

oner to be arraigned and the other was that she is somewhat too heavy and bulky to be crowded into the city's vehicle.

She waddled down Centre street side by side with Deputy Sheriff Reilly and followed by a curious crowd, to whom her poke bonnet, fat figure and gaudy attire betrayed her identity.

Joseph H. Diss Debar, the whilom general, was less fortunate. He had to make the trip in the usual way with the other prisoners.

When the fat medium reached Part III, she was placed in the temale pen. Her husband was boxed up with a crowd of dirty felons and separated from her by a high wooden partition.

Big Lawyer Howe, Ann O'Delia's deadly enemy, walked into court with a bran new drab overcoat and delicate tinted gloves ready to give Assistant District-Attorney Bradford points for the people. After two young burglars had been hustled to the bar and back the Clerk called:

When called upon to plead to the charges of conspiracy and grand larceny she answered "not guility" in a loud voice, with a scowl at the judge and the crowd in court. Mr. Diss Debar let his counsel. John G. Boyd, do his pleading for him. Senator Boyd intimated that he might withdraw the plea of not guilty and demur to the indictments, and Judge Martine gave him ten days to make up his mind.

District-Attornev Bedford asked that high bail be fixed on the grand larceny charge, "These people have been carrying on a business which is based on fraud and trickery. Brown-Stone Rubbers and Architects.

to the Editor of The Evening World:

At a recent meeting of the Building Trades Section of the Central Labor Union a delegate of the Brown-Stone Rubbers' Association made a bitter attack on a certain class of the New York architects, who are looked on as men of honor, and whom the public gen-erally put confidence in ; but, unfortunately, he said, such confidence was and is some-times sadly misplaced, as many could testify. times sadly misplaced, as many could testify. The brown-stone boses in order to retaliate on the rubbers for going on strike two years ago, determined to do away with rubbed work. They could do so only by inducing the architects to alter the specifications of buildings then in course of erection, so as to substitute "tooled" work for rubbed work, and specify "tooled" work only for future buildings. and specify "tooled" work for rubbed work, buildings.

MILTON S. BIBBY SHOOTS HIMSELF IN HIS SWEETHEART'S PRESENCE.

Would Not Marry Him Because She Had Heard that He Had Another Girl-A Desperate Struggle for Possession of the Pistol-Brgging the Hospital Officials to Permit a Death-Bed Wedding.

The occupants of the tenement-house, 234 East Seventy-seventh street, flocked to the third floor this morning on the report of a pistol shot followed by a woman's screams. The sounds came from the rooms occupied by Mary Welbert and her brother. Opening the door, the neighbors saw a man lying on the floor, with blood flowing from a wound in the right side of his body, while Miss Welbert bent over him, wringing her hands in terror.

An ambuiance was quickly summoned, and the man was removed to the Presbyterian Hospital, where his wound was pronounced dangerous.

Miss Welbert was taken to the East Sixty. seventh street police station, where she told Capt. Gunner that the wounded man was Milton S. Bibby, aged twenty-six years, of 210 East Seventy-sixth street, and was em. ployed in the machine shops of the Third avenue elevated road at Ninety-eighth street.

Miss Welbert, who is only nineteen years old, was engaged to be married to Bibby for nearly a year, but lately, having heard that he had been paying attentions to another young woman, she broke off the engagement. He vainly pleaded with her for some days to change her mind, threatening to end his life if she persisted in refusing him, and this morning he called to make a final effort. Finding her still obdurate, he drew a revolver, and, placing its muzzle at the back of his neck, was about to pull the trigger when she seized the hand which held the pistol. In the struggle to obtain possession of the weapon the hammer descended, catching the flesh between her thumb and forefinger.

Shaking himself loose, Bibby placed the pistol against his right side and pulled the trigger, exclaiming at the same time: "I've Miss Welbert, who is only nineteen years

At the hospital Bibby made a statement, saying that he had shot himself because Mary refused to marry him. He begged the authorities to send for her so that they could be married before he died.

The bullet has not yet been probed for, as his weak state will not permit it, but it is supposed that the ball took an upward course, penetrating his lung. His recovery is deemed improbable.

Among his fellow-workmen Bibby was morose and taciturn and made few or no friends.

### SEARCHING MANY MINDS.

The Hunt for Twelve Men Without Opinio to Try Kerr for Bribery.

The work of searching the minds of citizens in order to discover a dozen peers of Thomas B. Kerr who are competent to try him for bribery of the Board of Aldermen of 1884, was continued before Justice Patterson in the Court of Oyer and Terminer to-day.

Just 1 efore the opening of Court Lawyer John H. Bird, who was so smiling yesterday while his associates in Kerr's defense scored point after point against the District-Attorney, entered. The beatific smile was gone and su sterity frowned from his round face.

To an Evening World reporter he explained his seeming discontent. It was caused by Tru World's repeated statement that Thomas B. Kerr could and ought to be convicted and nunished.

"Why does THE WORLD do so?" he inquired. "No other paper does it. If it was not for The World there would be no venerable Noah Davis, his associate

THE EVENING WORLD has received the folowing communication :

To the Editor of The Evening World: THE EVENING WORLD'S persistence in the direction of securing public improvement, morally and otherwise, cannot fail of fruitful results. The great body of people in this city feel the need of a public-spirited journal like the senior and the juntor WORLD to point out to them those things most wanted and the manner in which the same may be

practically applied for the common good.

Your fight for free lectures is a splendid stroke in the right direction. Secure that boon and you will win the undying gratitude of the people.

But do not cease your labors at that juncture, but after having obtained the passage of

ture, but after having obtained the passage of
the Free Lecture bill let us have another of
your brilliant "statue" campaigns and build
a magnificent temple in which the people
may assemble and listen to those whose proud
privilege it shall be to instruct them.

Let the structure and its object be modelled on the example set by Peter Cooper,
when that public benefactor built his own
monument in the shape of the famous Cooper
Institute, and let everything therein be free
to the people who feel the need of the elevating influence of education.

The citizens contributing will be amply repaid by the growth of intelligence and advanced thought that will necessarily be inculcated by series of lectures and scientific
studies, which alone can secure that high
moral plane upon which every well-meaning
citizen is anxious the coming generation
should stund.

of some method for reaching and enlightening those whose days are devoted to toil is
enviersally acknowledged, and an institution
such as the one proposed was pronounced to
be in the line of progress pointed out by The
EVENIO WORLD'S Free Lecture bill.

The popular subscription idea was also applauded.

Mr. Roswell P. Flower was seen at 62 Broadway. He said: "If the idea can be carried out I certainly consider it a most carried out I certainly consider it a most worthy one. Rich men every now and then establish schools in this city in which the children of the poor may be educated free. Such actions bridge over the gulf supposed to exist between the rich and poor and make their relations pleasanter. There cannot be too much done in the way of educating the poor, and as the idea suggested would give a liberal education free, of course I favor it."

President J. Edward Simmons, of the Board of Education, was found in his office in the First National Bank. While he did not care to express a definite opinion until he had thought the project over, he said: "A great thought the project over, he said : deal is being done to educate the people of this city at the present time. We have ex-cellent public schools and colleges now. I am a firm believer in higher education, for,

among many other things, it decreases crime. The majority of our convicts are unable to read or write. A scheme, therefore, to in-crease the educational facilities for the poor rease the educational facilities for the poor must be a good one.

Henry Bergh's nephew and successor as President of the S. P. C. A., whose name is also Henry Bergh, said: "I most heartily favor the erection of such a building by popular subscription. It is an excellent project. We cannot do too much to educate working men and women, and the idea proposed of circles there.

We cannot do too much to educate working men and women, and the idea proposed of giving them free lectures on instructive themes is a worthy one. By the way, I would like to suggest as the subject of one of the lectures the proper treatment of animals."

Supt. Jasper, of the public schools, also expressed approval of the project.

"I am emphatically in favor of the project," he said. "I think it a very sound one. To be sure a great deal is being done every day to educate the massos, but such an idea as is proposed would do much to advance thought among them and enlighten them. I wish the plan every success."

Henry Clews, the banker, said: "It is a grand idea to advocate the erection of a temple of such a character. It should be an edifice which will add beauty to the city, and I am sure it would be of great public benefit. We need it to make our city keep on a level with cities of the Old World.

"I think the plan to start the erection of such a building by subscriptions and bequests is an admirable one. Many people, baving accumulated great wealth by thrift, are puzzled, when they make their wills, to find a suitable way to dispose of a part of their wealth in charities and for the public good. President Nicholas Murray Butler, of the Industrial Education Association, 9 University place, said: "I should think it would take more money to buy land and erect a building than it would to encourage by finannancial help the institutions in the city that could and would offer such lectures for instruction as are proposed. But there are of course many people who would feel more at home in a building built by the people than in these institutions. If it would tend to popularize instruction it would be an excellent thing. Anything that will keep children and young people out of salcons, ten-cent theatres and low resorts will be a great benefit. New York has money enough to do anything, and if this idea of ownership in the masses will induce people enough to do anything, and if this idea of ownership in the masses will induce people to attend these lectures, then let us by all means have the building. It would be a big undertaking, but they don't stop for that in The World every success in the matter."

R. T. Auchmuty, who has beengyrominent in the cause of education in this city, said:
"A building like the Chicago Auditorium would be a great benefit here in New York.

"A building like the Chicago Auditorium would be a great benefit here in New York. New York wants such a building badly. There is such an enormous population here which has not the advantage of good lectures and music, that, if a place of the kind could be prepared, it would be a grand, good thing."

nue and Twenty-third street, said: "It will be a noble, worthy undertaking, and The World is the paper to do it. In fact, it is the only paper that could do it. We reed more buildings of that character in New York. This city is growing rapidly, and we have not enough such edifices."

David J. Soligman, the banker, of No. 21 Broad street, said: "We are in great need of such a building, even two or three of them, and I am glad The Eventon Woold thinks of advocating it. It should be brought before the public, agitated and then subscriptions should be raised. We have only one building in the city similar, and that is not enough."

A Card from Miss Van Etten

the Editor of The Econing World:
The article in last night's WORLD entitled Miss Van Etten's Policy" does me great injustice. I have not consented to any amendments to the Factory bill, whereby the penalty for the employment of children under age is abolished. I know of no such proposition nor amendment, and would con-sider such action too outrageous and inhuman one at Albany to consent to any such amend-ment, nor do I believe such a proposition was entertained by any one. Yours truly, IDA M. VAN ETTEN.

Good Umpire Could Have Got the Fight for Sullivan in the Twenty-fourth Round on a Foul-Mitchell Repeated Unfair Tacties - Holake's Startling Statement

Made in a Letter to the Public. BOSTON, May 3.—The following startling

etter appears in the Herald this morning : "In defense of myself I am forced to give a few inside facts of the late fight in France between John L. Sullivan and Charles Mitci ell which may, doubtless, be of interest to those who are of a sportive turn

of mind. "I was a spectator at the ring side and a strong Sullivan man throughout. As a preliminary, I wish to state that to my mind any man, however good he may be, will find it next to impossible, when he has been attacked with the shakes and is minus the use of the arm with which he does most of his execution, to score a victory over a man who, un-

der other conditions, is inferior to him. "The result is the recent 'mill' is no dis grace to Sullivan for that reason, and it seems a puzzle to me why a cry should be set up that fair play was not shown the

American.

FROM PALACE TO GUTTER.

A Former Queen of the Demi-Hende Takes Rat Pelson on Broadway.

A poorly-dressed woman who was tottering along Broadway at 4.30 this morning fell at the corner of Forty-fifth street. She was unconscious when Policeman Miller reached her. She was taken to the Roosevelt Hospital. She had taken rat poison and had half abox in her pocket.

At 7 o'clock she was sufficiently recovered to tell that her name was Blanche Stokes and that she lived at 103 West Thirty-second street. She came to the admirers by the score. Blanche Stokes was queen of the demi-monde of the old Twenty-ninth Precinct, and numbered her admirers by the score. She came to this city from Hoston between eight or nine years acc. She was then only sixteen years old. Her beauty made her famous.

Her appetitite for drink, which she indulged to excess, finally began to overcome her, and during the past three or four years her decline has been rapid.

At the address she gave, it was said that she had not lived there for over a year. It was learned, however, that since her last discharge from the workhouse she had entered the home of the New York Magdalen Benevolent Stockes, in East Eighty-cight street, in an attempt to reform. She left there about st weeks ago and has since been a vagrant on the streets.

fight would have been the result. We had the people with us. Then why should any man hesitate in s anding out for what belongs to his man under those conditions?

"In the twentieth round Carney came to me and said: Teddy, it's blooming near over. Have you much at stake on the fight?' I replied that in case John lost I would never return to America, and beseeched him to consult the Mitchell party regarding a draw. 'Pony' Moore, Mr. Jinks, Kilrain and Ba'dock declined to listen to the proposal. Carney failed to return to tell me of the result of his errand, so I went to the opposite side and found Carney, Nobby Clark and George Probert sharing up the collection gathered for putting up the ropes and stakes. I called Carney away and then informed him not to bother about the paltry share, but do as I asked and he would lose nothing by the operation. He replied that he would sacrifice anything to do me a favor. I then told him to direct his attention to Baldock and offer him a money consideration to accomplish what we desired, preferring that method to a disgraceful proceeding by breaking into the ring and 'gouging' the affair. The amount was too small, so I authorized him to double it. That proved to be of no consequence. I, then interned Phillips that he must act in co.ope. small, so I authorized him to double it. "Between Carney and Probert we made a "Between Carney and Probert we made a success of our efforts, and shortly thereafter Baldock crawled through the ropes and joined the fighters' hands, requesting them to shake and call the affair off. The whole transaction was done so quickly and oleverly that it failed to aronse suspicion. The referee was powerless and had to accept the men's agreement to a draw, so that he was no party to the transaction. Had there been any foul play it certainly would have been cabled to this country, as will be seen by the following argument:

"The press of this country got their reports through Mr. Ed A. Perry, of the Boston Herald: Mr. A. Brisbane, of the New York Nam, and Mr. Bonsall, of the New York World." It will be "It will be remembered that when Jake Kil-

"It will be remembered that when Jake Ril-rain and Charley Mitchell gave their show at St. James Hall, London, nine months ago, Mitchell handled Brisbane and Bonsall in a very rough manner, finally ejecting them from the dressing-room rather forcibly. This raised their ire to such an extent that both swore vengeance and were determined to give Mitchell none the best of anything. Had any mean trick been resorted to by the give Mitchell none the best of anything. Had any mean trick been resorted to by the Englishmen, would not these men have cabled to that effect? Both were Sullivan to the backbone, and their money went that way. The reporters were there through our invitation, and were indebted to us to such an extent that they certainly put the fight before the public as the Americans should read it. I have no desire to occupy valuable space, but if facts and figures are necessary I can furnish them when called upon from a proper source.

"I think none the less of John L. Sullivan
to-day as a fighting man, and believe that in the
late fight he established beyond doubt his staying qualities. I would like to see him redeem
himself before Christmas Day, and any light
that he goes into he has my best wishes. It
is to be hoped, however, that good, efficient
judges and a well-informed referee are selected to perform the duties.
